Applicant : Olsen HUNG

Art Unit : 1642

Serial No. : To be Assigned

Examiner :

Filed :

Title : METHODS AND DEVICES FOR DELIVERY OF AGENTS TO BREAST MILK DUCTS

Assistant Commissioner of Patents
Washington, D.C. 20001

PRELIMINARY AMENDMENT

Prior to examination, please amend the application as follows:

In the Claims:

Please amend claims 27, 38, 49 and 60 to read as follows:

27. (Amended) A device for delivering an agent to a breast milk duct over time, said device comprising:

a unit for holding the agent to be delivered to the breast duct, said unit being sized and configured to be positioned and supported on a nipple, and

an elongated member for delivering the agent from the unit to the breast duct, said elongated member being in communication with said unit, being sized for positioning within the breast duct, and having a distal terminal end for positioning within the breast duct, said distal end having an atraumatic tip.
